Customer Needs and Wants	Added Value
Ability to conduct face-to-face meetings with employees, customers, vendors, etc., at different locations	You can dynamically interact with up to 12 people anywhere in the world through the Live Conference system. All the participant needs is a fast Internet connection and a webcam
Need to reduce the time and cost of travel to meet tighter budgets	Live meetings can be conducted for pennies per minute making Live Conference a truly economical meeting option
Need an impromptu meeting on short notice to solve a problem, share information or make a decision	Send an email or make a quick call and you can set a Live Conference in minutes from your office or home, or even out of town.
Need documentation of meeting held and who attended	All Live Conferences are documented in your back office with a list of attendees and their email addresses for follow up communication
Need to accommodate others without a webcam into the conference	All invited viewers with a high speed Internet connection will be able to see the conference and instant message the conference leader
Conference Host may want to add participants during the conference	With a few mouse clicks the conference can go from 2 to 12 participants or any number in between
